NOTES

1. Units mm. Board values nominal (LILYGO: 62 x 26 x 10) - verify with calipers, edit case_params.py.
2. Print PETG/ASA, 0.2 mm layers, both shells face-down on the joint, no supports.
3. Assembly: board into tray, caps into lid, lid on, 4 x M2 x 8 self-tapping from below.
4. Strap tunnel under the board takes a 38-40 mm band, worn on the upper arm.
5. Clearance 0.35 mm per side around the PCB; lid overlaps the glass by 0.8 mm.
